

Capital Program Manager – Whitehorse Yukon

Established in 1987, Yukon Energy (YEC) is a publicly owned electrical utility that operates as a business, at arm's length from the Yukon Government. It is the main generator and transmitter of electrical energy in the territory. Our plant facilities are on the Traditional Territory of Yukon First Nations. There are 14 First Nation in the territory and we work within these Traditional Territories in all of our business operations.

The opportunity exists for a seasoned project manager professional to join Yukon Energy as the Capital Program Manager. Reporting and working closely with a progressive and forward-thinking Senior Management Team, the Capital Program Manager will be responsible for overseeing the work of all project management personnel in full cycle project management: project planning, initiation, resourcing and execution to monitoring, control and completion.

The ideal candidate will have a degree in Engineering; Health Safety/ Environmental certification; Project Management Professional (PMP) Designation, program Management Professional designation an asset (PgMP); 10+ years of working experience as a Project Manager on power related projects; strategic thinking and the ability to manage multiple goals and demonstrate credibility as a senior-level project leader.

Located in the capital of Canada's spectacular Yukon Territory, this is an exciting opportunity to join a dynamic corporation where you will be a part of creating an electricity infrastructure for generations to come with Yukon Energy.
